Length Considerations DoorStyles

The factory will fabricate your Shangri-La DoorStyles Shading to the exact length ordered when the vanes are in the open (or view through) position. When the vanes are tilted to the closed position, the shading will become 1³/₄" longer. When closed on an inside mount or when used with hold down brackets, a slight puckering may occur.

Standard Shadings

Comfortex will fabricate your window shading to the exact length ordered +/- 3/8" when the vanes are in the open or "view-through" position. However, because the vanes rotate when closing, the shading will become 3/8" longer in the closed position. If closed and not raised, a slight puckering can occur on the lower most sheer section.

Shipping Charges - The freight on all blind orders within size and weight limitations of UPS will be prepaid. Boxed shades, track, or vanes that do not meet the UPS size and weight requirement will ship common carrier. There will be a direct common carrier fee of \$40.00 for each order that requires this mode of transportation. A per unit transportation charge will be added to all orders.
