Column Notes

- 1) Width: Enter width measured where the brackets will be installed.
- 2) Mount: OM (bracket to bracket, unit width) or IM (factory makes 1/4" width deduction)
- 3) Fascia Color: White, Bronze, Silver, or Black
- 4) Reverse Roll: Enter Y to select, leave blank for standard roll. NOTE: Fascia (Item 3) not available with a Reverse Roll.
- 5) Enter information such as custom control lengths, side track, fascia bracket covers, optional hem bar selection (see options below) etc. that you wish to convey regarding each line item.

Please Note: Silver Screen fabric requires either an exposed fabric-wrapped or exposed metal hem bar.
 Hem Bar Type: Exp-FW (Exposed-Fabric Wrapped) or Metal (Exposed Metal)
 Hem Bar Color: Exp-Fabric Wrapped available in White or Off-White; Metal available in Silver (S) or Black (B)

Seam Placement Options

Place all seams: High as Possible
 Low as Possible

OR: Item # _____, place seam at _____ inches from bottom of hem bar
 Item # _____, place seam at _____ inches from bottom of hem bar
 Item # _____, place seam at _____ inches from bottom of hem bar

Vasa V9500 Product Standard

The Vasa V9500 standard roller shade is an open roll, motorized shade with non-fascia brackets, and an RF-welded concealed hem bar. A number of no-charge options (available at time of order) include reverse fabric roll, and multiple fabric-wrapped or exposed metal hem bars. Since Vasa welds all fabrics in its Austin factory, custom seam placements are a breeze--just complete the box above.
